Are you a fan of Manuel Vázquez Montalbán and his famous detective Pepe Carvalho, who burnt books and cooked like an angel? Do you want to follow his investigations up and down the Rambla as he does in the novel *Tattoo*?

You can do it with the mobile app Literapolisbcn!!

Download the app (Android or IOS), locate one of the 11 points in the route and walk over to it (your mobile's compass will help you). Select it and answer the first question! You'll need to activate the GPS, charge the battery, and use headphones. But watch out! Keep your eyes on the street while you're checking your phone.

A different way to walk the Rambla, one of the most literary streets in Barcelona.
